Taiwan's Top 100+ Vegetarian Restaurants
A New Vegetarian Paradise - Taiwan!

Exquisite cuisine is the mysterious common tongue of travelers, invoking feelings of satisfaction and happiness that resonate with all. Famous worldwide, Taiwanese delicacies and specialty snacks are one of the main attractions that draw visitors to the country, having received CNN's vote of approval as one of the top ten vegan food destinations in the world.

Taiwan’s catering industry is imbued with certain creativity energy; with LOHAS initiatives for sustainable living on the rise, the Taiwanese are very conscious of their health and care about minimizing their carbon footprint when it comes to their food, so locally-grown organic produce is widely embraced as vegetarian restaurants continue to thrive.

To provide tourists from abroad with information on the many food experiences Taiwan has to offer, we have printed a manual of popular Taiwanese vegetarian restaurants selected for their convenience, eco-friendliness, creativity, and attention to quality for their ingredients. Many great restaurants were regretfully left out of this first edition, but they will be added to future publications over time.

We cordially everyone to savor the vegetarian delights of our island of treasures for themselves and experience the modest yet genuine passion of our hospitality.
